Professional Summary

Developer with practical experience in full-stack projects using Java, Spring Boot, React, and MySQL. Familiar with microservices, cloud, and DevOps practices, with a focus on building reliable, secure, and user-friendly applications.

Education

- KALINGA INSTITUTE OF INDUSTRIAL TECHNOLOGY** 2022 – Present
B.Tech in CSE – 8.25 CGPA (upto 6th sem)
- ADWAITA MISSION HIGH SCHOOL** 2021
Senior School (12th) – 71.8%
- S.K.P VIDYA VIHAR** 2019
High School (10th) – 80%

Technical Skills

- Languages:** Java, C, Python, JavaScript
- Frameworks & Databases:** Spring Boot, React, Flask (basic), MySQL, MongoDB
- Cloud & DevOps (Basic):** AWS, Docker, Kubernetes, CI/CD pipelines, GitHub

Project Work

Earthly — E-Commerce Marketplace — Full-Stack Web Application ([GitHub](#)) August 2025 - Current

- An e-commerce platform dedicated to health and wellness products using microservices architecture for backend.
- Available microservices: service registry (eureka server), API gateway, auth service, user service, category service, product service, cart service, order service and notification service.
- Containerized the entire system with Docker, deployed via Kubernetes and set up automated CI/CD pipelines using GitHub Actions to build and push Docker images based on code changes.
- Technologies - Spring boot | React JS | JWT | MongoDB | Docker | Docker Compose | Kubernetes | GitHub Actions

CashFlow — Personal Finance Tracker — Full-Stack Web Application ([GitHub](#)) June - July 2025

- A personal financial management application with multi-role functionality with user authentication, secure access for both users and administrators, with features such as sign-in, sign-up, password reset, and email OTP verification.
- User dashboards, transaction management, upcoming/recurring transactions tracking, monthly summaries, statistics, budget management and category management.
- Technologies - Spring boot | React.js | MySQL | JWT

Practice Projects

- QuizMaster ([GitHub](#)) - Web App for taking online quizzes and subject-wise notes.
- MovieMeter ([GitHub](#)) - Web App for finding movies and viewing movie reviews.

Certifications

- IBM DevOps and Software Engineering 28/06/2025
- AWS Academy Graduate - AWS Academy Cloud Architecting 26/12/2024
- Spark 2.0: Job Ready Java Full Stack LIVE Course 19/11/2024

Extracurricular Activities

- Active member of NSS – participated in campus cleanliness drives, blood donation camps, and awareness programs.
- Participated in AOG (Art of Giving), an initiative by KIIT founder Dr. Achyuta Samanta sir, promoting social responsibility and community values.
